Experience

PRESENT *Senior UX/UI Designer*

LINEN FINDER

Provide UX/UI design and consulting in the form of wireframes, story boards, interactive ideas and high fidelity prototypes. Deliver visual design solutions, creative strategy and branding for clients. Analyze user feedback, analytics and data to identify opportunities for improvement of the user experience. Work closely with project managers, marketing directors and technology team to design, develop and validate new features for increased lead generation across all sites.

2012-14 *Creative Director*

ERE MEDIA

Responsible for directing the overall creative process, from original concepts to final implementation. Design lead for all projects, including conference websites, mobile apps, media kits, infographics, ad campaigns, print collateral and event signage. Protected brand continuity across all media touch points. Sourced and directed outside freelancers through various projects.

2008-12 *Interactive Art Director*

SOUTH CENTRAL MEDIA

Crafted digital solutions for a diverse range of marketing and integrated communications needs, and led a team of designers to deliver effective interactive experiences. Worked closely with clients to align design objectives with marketing goals and target audiences. Designed wireframes, story boards and mockups to communicate ideas. Developed custom themes and content types in WordPress.

2006-08 *Flash Developer*

RUST RECORDS

Designed and developed artist websites, ecards and games. Created interactive components for the Digital Rodeo social media project, including a multi-album shopping cart. Built prototypes to demonstrate and test recommendations.

2003-05 *Flash Designer*

DEALERSKINS

Designed and animated automotive dealership websites and ecards. Worked closely with the development team to conceive, design and integrate new tools for local dealers.

Education

Bachelor of Science

MANAGEMENT INFORMATION SYSTEMS

Greenville College / Greenville, Illinois

Graduated May 2001
